DETAILED ACTION

This responsive to Amendment filed on 2/17/2006. The Amendment has been entered.

Claims 1-15, 17-27, 29-31, 33-38, 40-45, 47-52, 54-67 are pending.

Claim Objections

1. Claim 49 are objected to because of the following informalities:

Claim 49 depends from cancelled claim 46. Examiner, in this office action assumes that it should depend from base claim 45.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-15, 17-27, 29-31, 33-38, 40-45, 47-52, 54-67 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are:

As to claim 1, the omitted step is " the filtered virtual time debt is determined using a filter based on an exponential weighted moving average (EWMA) virtual time delay of a presently received packet using the expression,

$$EWMA_k = (1-g) EWMA_{k-1} + g(VTD)_k,$$

Where k indicates the presently received packet, and k-1 indicates the last packet received, the VTD is the virtual time dept.

According to the specification this step is one necessary for the invention to work.

Claims 2-3 and 5-7 depends from respective parent claim 1, thus they are subject to the same rejection.

As to claims 8, 11, 12, 14, the omitted step is " the filtered virtual time debt is determined using a filter based on an exponential weighted moving average (EWMA) virtual time delay of a presently received packet using the expression,

$$EWMA_k = (1-g) EWMA_{k-1} + g(VTD)_k,$$

Where k indicates the presently received packet, and k-1 indicates the last packet received, the VTD is the virtual time dept, and VTD is the difference between the time the packet is expected to arrive and the time the packet actual arrived". According to the specification this step is one necessary for the invention to work.

Claims 9, 10, 13, 15 depends from respective parent claims 8, 11, 12, and 14, thus they are subject to the same rejection.

As to claims 17-23, the omitted steps is "the filtered virtual time debt is determined using a filter based on an exponential weighted moving average (EWMA) virtual time delay of a presently received packet using the expression,

$$EWMA_k = (1-g) EWMA_{k-1} + g(VTD)_k,$$

Where k indicates the presently received packet, and k-1 indicates the last packet received, the VTD is the virtual time dept.

According to the specification this step is one necessary for the invention to work.

As to claims 24, and 26, the omitted step is: "the filtered virtual time debt is determined using a filter based on an exponential weighted moving average (EWMA) virtual time delay of a presently received packet using the expression,

$$EWMA_k = (1-g) EWMA_{k-1} + g(VTD)_k,$$

Where k indicates the presently received packet, and k-1 indicates the last packet received, the VTD is the virtual time dept.

According to the specification this step is one necessary for the invention to work.

Claim 25 depends from respective parent claim 24, thus it is subject to the same rejection.

As to claims 27, 29-30, claims 27, 29-30 suffers from similar deficiencies as indicated in the above claims 24 and 26, thus they are subject a similar rejection.

As to claims 31 and 38, the omitted step is that the virtual time dept used in comparing step should be in accordance with the expression EWMA indicated above with regard to claim 1 (EWMA as defined in claim 4).

As to claims 33-37, 40-44, claims 33-37, 40-44 depends from respective parent claims 31 and 38, thus they are subject to the same rejection.

As to claims 45, 52, the missing step is the step is that the filtered time debt should be in accordance with the expression EWMA as indicated in claim 4.

As to claims 47-51, 47-51 depends from claim 45, thus they are subject to the same rejection.

As to claims 54-67, the omitted step is the expression of the exponential weighted moving average as indicated by the formula:

$$EWMA_k = (1-g) EWMA_{k-1} + g(VTD)_k$$

Where k indicates the presently received packet, and k-1 indicates the last packet received, the VTD is the virtual time delay.

According to the specification the use of the formula in the calculation of the EWMA is one necessary for the invention to work.

Allowable Subject Matter

3. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments filed 2/17/2006 have been fully considered but they are not persuasive:

35 USC § 112 second paragraph:

The rejections under 35 USC § 112 second paragraph have been withdrawn in view of Applicant's amendment to claims 1, 8, 11, 12, 14, 17, 14, 26, 27, 29, 31, 38, 45 and 52.

Claim objections:

The objections to claims 33, 36 and 47 have been withdrawn in view of the Amendment.

35 USC § 112 first paragraph:

Applicants assumed that claims 17, 24-27, 29,31,33, 35-38,40, 42-45, 47, and 51-52 are allowable in view of the Amendment. Applicants lack argument with regard to the assumed allowability. In addition Applicants did not amend the independent claims to include the omitted step(s) as indicated in the last office action.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Li et al, US (6,826,151); Raisanen, US (6,977,942); and Smith et al, US (6,862,298).

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
